## SAFESCAN 135i

### FALSE MONEY DETECTOR

#### COMPACT SECURITY

A reliable false money detector that takes almost no space? The Safescan 135 combines sleek, compact design with six-fold detection. Profit from maximum security with the approval of the European Central Bank test. Despite its modest size, the user experience is great.

Banknotes are easy to insert and the clear display shows you within half a second if the banknote is 'genuine' or 'false'. Also Safescan 135 sums up amounts automatically and the device – standard for Euros, British Pounds and Swiss Francs – can handle several extra currencies. The Safescan 135 has an update port for you to easily update the software.

- Automatic banknote verification
- Insert in any direction (EUR & GBP)
- "False banknote" alarm
- Verification speed: < 1/2 second
- Shows quantity and totals
- Default currency: Euro's, British Pounds and Swiss Franc
- 100% score on test by the European central Bank
- Six fold counterfeit detection
