- Quick Thermal Printer with Graphic Logo Printing
- 99 departments and up to 2,000 articles each with 16-character text

XE-A217B

XE-A217W

Large Multi-Line LCD for User-Friendly Operation

The clear, backlit, 5- or 8-line*, 160 x 64-dot LCD operator display featured on the XE-A207W/B and XE-A217W/B provides high visibility. It can display up to 20 alphanumeric characters, allowing clerks to view items, prices, and other information even in low-light environments. For better viewing, the operator display can be tilted anywhere from 25° to 70°. These models also feature a pop-up, rotating, 7-digit LED customer display, which can be adjusted to an easy-to-read angle, ensuring customer confidence.

* Five lines for sales registration, eight lines for reporting/programming.

Data Backup with SD Card Slot

The XE-A207W/B and XE-A217W/B are equipped with an SD card slot. SD cards (4GB to 32GB) can be used to back up various kinds of data, including daily sales and Electronic Journal data. Data (CSV file type) can be saved to an SD memory card then managed on a computer via Excel or other spreadsheet applications. Also, various settings can be configured easily by using an SD card. Parameters such as the store name and logo, department names, product names, sales tax rate, and others can all be configured on a computer and imported into the machine quickly and easily with an SD card.

Note: SD cards are not included. Software for importing PC-configured data into the XE-A207W/B and XE-A217W/B is provided. Consult your Sharp dealer for details.

The SD logo is a trademark of the SD Card Association.

Electronic Journal

The XE-A207W/B and XE-A217W/B feature an Electronic Journal function that can store up to 9,000 lines of transaction data electronically, helping to conserve paper and reduce costs. For easy reference, the Electronic Journal View function displays transaction data from previous entries.

High-Capacity Metal Cash Drawer

The space-efficient cash drawer takes up minimal counter space yet generously provides five bill compartments and eight coin compartments. When not in use, the ruggedly built drawer can be locked shut, keeping your money safe.

Quick Thermal Printer with Graphic Logo Printing

The built-in thermal printer prints out sales receipts on 58-mm-wide paper at a speedy rate of approximately 12 lines per second. A graphic logo can be printed out as well, helping to further promote your business. Plus, the drop-in paper loading mechanism allows you to change paper rolls quickly and easily.

Quick and Accurate Price Entry

Equipped with 2,000 PLUs (price look-ups), the XE-A207W/B and XE-A217W/B make entering pricing information a snap. By simply entering the code or pressing the XE-A217W/B direct keys for the items being purchased, you can total up sales with accuracy and speed. A total of 99 departments are also available, enabling you to easily track and analyse transactions by product type.
Other Key Features

• Normal keyboard (XE-A207W/B) or flat keyboard (XE-A217W/B)

• Simple GLU (guest look-up) function (XE-A217W/B only)
